Types of Vehicles and Permits on the Streets of Avalon - 2015

4-4.1703

(d) **Temporary Vehicle Permits.**

(1) A temporary vehicle permit may be granted to an applicant who demonstrates:

a. All of the following:

(i) A vehicle is needed within the City on a temporary basis for a specific project;

(ii) The applicant does not intend for the vehicle to remain parked on public streets, ways or alleys in the City on a permanent basis;

(iii) No other permitted vehicle or source of transportation can reasonably satisfy applicant's transportation requirements;

(iv) If the vehicle exceeds the length and/or width limitations set forth in Section 4-4.1705, that the weight, length, width and nature of the vehicle is necessary for the proposed use, that a smaller vehicle cannot satisfy the applicant's transportation requirements and that the vehicle will not have a deleterious impact on traffic congestion, traffic safety, parking, and the City Manager or Vehicle Hearing Office makes such findings;

(v) The applicant possesses a valid Avalon business license and has paid applicable fees.

b. The Hearing Officer has denied the renewal of any permit under which the vehicle had been permitted in the City and an appeal to the City Council is pending; or

c. An existing permit has expired and the permittee is awaiting a hearing date for renewal; or

d. The permitted vehicle is removed from City streets for repair and a temporary replacement is needed while repairs are being made to the permitted vehicle; or

e. The permitted vehicle is experimental and terms and conditions are imposed requiring its operation and removal;

f. The applicant has submitted an application to California State Department of Motor Vehicles for a handicapped parking permit, which temporary permit shall entitle the permittee to utilize handicapped parking privileges while waiting action thereon. The City shall utilize a special sticker to signify that the holder thereof is entitled to utilize handicapped parking privileges and shall specify an expiration date not more than thirty (30) days after the issuance date.

g. The applicant is a nonresident owner of real property improved with a residential unit(s) which is not used for transient rentals. The temporary permit may be issued only to a nonresident owner who is occupying such property and who would otherwise be required to comply with the provisions of subsection (g)(2) of this section 4-4.1703 regarding overnight parking on public streets and rights-of-way. Temporary permits issued pursuant to this subsection shall be for such period of time as determined by the City Council and shall be conditioned upon use of such autoette only by the permittee.

h. The applicant owns and operates a business located in the Pebbly Beach area and the closure of Pebbly Beach Road to pedestrians, most autoettes and motorcycles has resulted in a financial hardship, including but not limited to employee staffing, the ability to attract customers or transportation of materials and equipment, the applicant proposes to use the vehicle to transport employees, customers, equipment and materials to and from the business. As a condition of the permit, the permit issued pursuant to this subsection shall cease to be effective upon the reopening of Pebbly Beach Road to all autoettes and the vehicle shall be removed from Catalina Island within fifteen (15) days thereof unless the business operator is otherwise qualified for a permit for the vehicle. In addition, the temporarily permitted vehicle shall only be used for commercial purposes.

i. Temporary vehicle permits issued pursuant to this section to local contractors and businesses shall be subject to the following additional conditions:

(i) The vehicle may only be parked on City streets, alleys or public ways during permitted building hours and days;

(ii) The vehicle may only be used for the specific project or job described in a written application and no personal use is permitted;

(iii) The vehicle cannot be used in the interior unless the specific project or job requires interior travel as described in a written application;

(iv) The vehicle must be parked at the applicant's business or warehouse location overnight when not temporarily permitted. Parking at an off-street residential location does not satisfy this condition.

(v) When in use, the vehicle must display a uniquely colored, laminated permit issued by the City bearing the job location and dates of validity.

(vi) Payment of applicable fees.

(2) Except for permits pursuant to (d)(1)h., the City Manager or his designee is authorized to issue temporary vehicle permits, effective for a time period as determined to be appropriate by the City Manager, but in no event for more than one (1) month. The City Manager may issue no more than three (3) temporary permits to any one (1) applicant or for any one (1) vehicle during any twelve (12) month period. The foregoing limitations shall not apply to temporary permits issued pursuant to subsection 4-4.1703(d)(1)g. to allow overnight parking on public streets and rights-of-way by nonresident property owners.

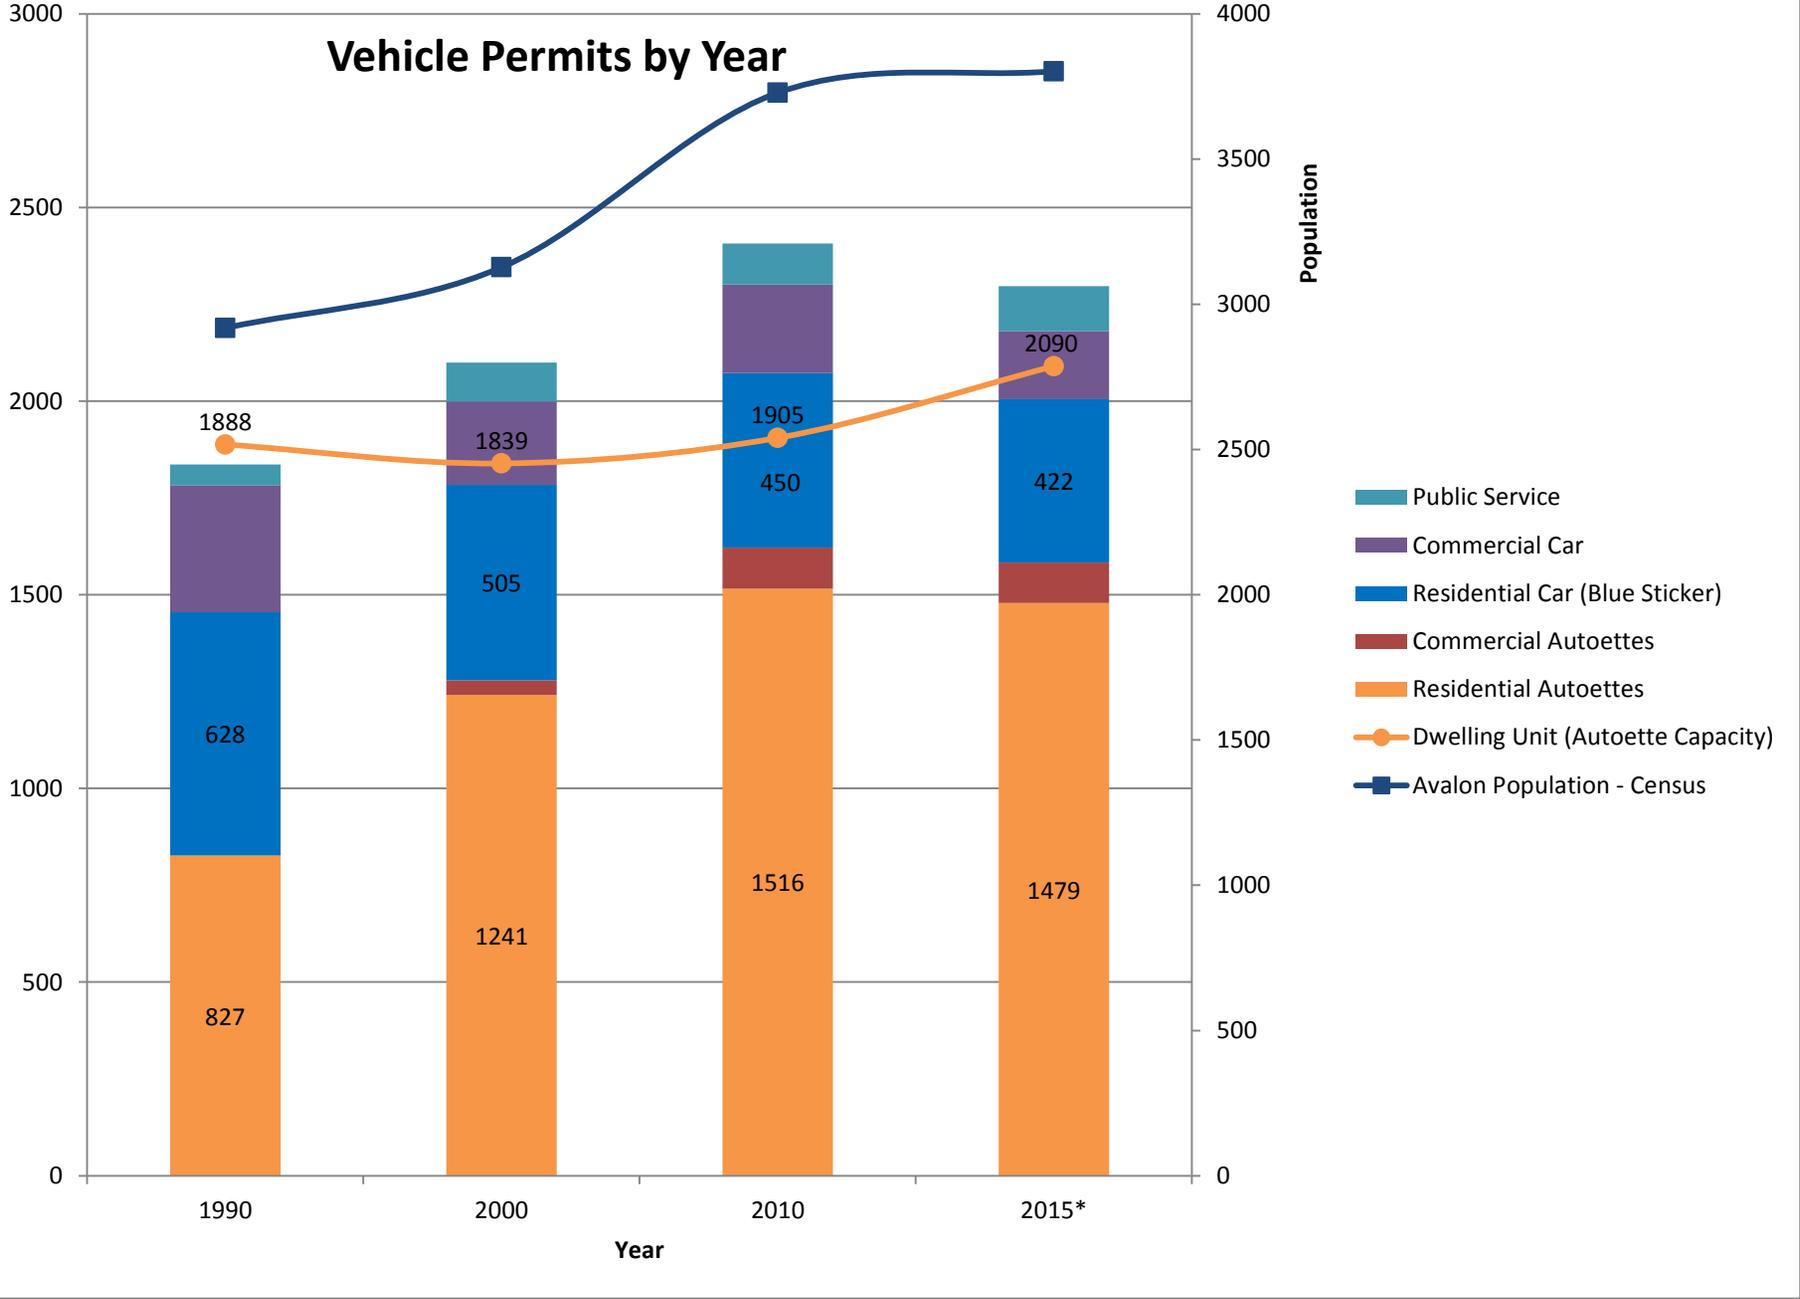

(3) Except with regard to temporary permits issued pursuant to subsection (d)(1)h. which remain effective until Pebbly Beach Road is reopened, the Hearing Officer is authorized to issue a Temporary Vehicle Permit for a maximum period of six (6) months, or in the case of a Temporary Vehicle Permit pursuant to subsection (d)(1)e, for a maximum period of twelve (12) months. Any such permit may be renewed upon the officer making the findings set forth in subsection (d)(1)a. above.

(4) All vehicles with temporary vehicle permits shall be provided by the permittee with overnight off-street parking and shall not be parked on any public street or right-of-way between the hours of midnight and 6:00 a.m., unless otherwise provided in the permit.

(5) The vehicle shall be used only for the purposes for which the permit is issued. Conditions may be attached to the permit to assure that the applicant complies with the purposes and intent of this article and the regulations adopted pursuant thereto.

(6) The Hearing Officer shall have the authority to impose a fine for violations of the conditions and terms of a temporary permit, up to a maximum of One Hundred and no/100ths (\$100.00) Dollars for the first violation; Two Hundred and no/100ths (\$200.00) Dollars for the second violation; and Three Hundred and no/100ths (\$300.00) Dollars for the third violation. In the case of temporary permits issued pursuant to (d)(1), the Vehicle Hearing Office shall have authority to permanently bar an applicant from receiving future temporary permits. Hearings on whether to impose such fines or permanently bar an applicant from receiving future temporary permits shall be conducted in the manner set forth herein for hearings.
